BEYOND COPPER

# LEEEX METALS PRIVATE LIMITED

## COMPANY'S PROFILE.

Leebex Metals is a one-stop manufacturing solution for the production of all copper and copper fabricated products right from procuring and processing the raw copper to the finished products.

Conceptualized in 2019, from two strongly positioned companies - Leebo Group and Excel Metal Engineering, Leebex Metals believes that the expertise and strongly instilled knowledge from years of experience of the directors along with fairly skilled manpower will guide them to be the leading manufacturer of copper fabricated products.

**Leebo Group**, together with the promoters of a strongly positioned company in the industry, **Excel Metal Engineering**, conceptualized **Leebex Metals** (a joint venture) as a one-stop manufacturing solution for the **production of all copper and copper fabricated products**, right from procuring and processing the raw copper to the finished products. Situated in Nelamangala Taluk, **Bangalore**, ad-measured with a **plant area of 15000 sq.mt** approx, it has an installed capacity of **5000 MT p.a.**

## BOARD OF DIRECTORS

*"Mr. Narayan PV is the Managing Director of Leebex Metals. He has been a prominent personality in the industry since the very beginning."*

*"Mr. Rajesh S Agarwal, director of Leebex Metals, is a man who has mastered the techno-commercial skills of copper manufacturing."*

*"Apart from being a dynamic entrepreneur, Mr. Sasi PV is also the Director at Leebex Metals. With his superior engineering skills & in-depth knowledge of forward integration & copper manufacturing process, he has been influential in the creation of Leebex Metals."*

## VISION / MISSION

**Our vision is to scale-up our operations by developing modern methods of engineering and offering outstanding services**

**To constantly meet & exceed our customer's expectations by producing premium quality fabricated copper products**

## PRODUCTS WE OFFER

### 1 CU ROUND / HEX / SQUARE

At Leebex Metals, quality is the essence of the entire production process

### 2 CU UPCAST RODS

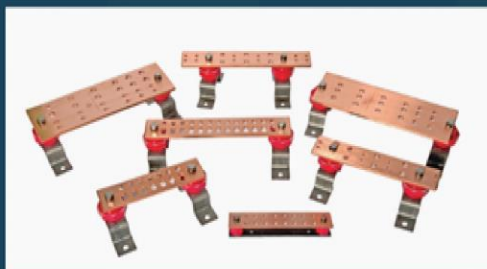

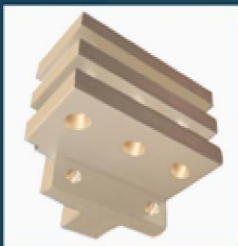

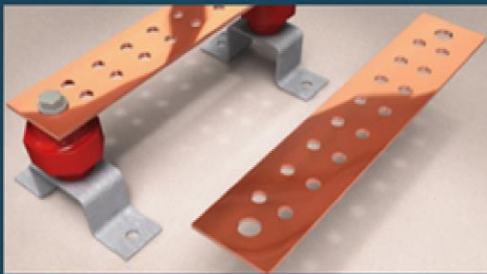

Leebex Metals has set up a benchmark for the products

### 3 CU FLATS & STRIPS

Leebex Metals takes care of everything until it reaches the customers

# COMPONENTS

“

*At Leebex Metals, quality is the essence of the entire production process*

”

## 1 TEAM

Leebex Metals has a team of professional, skilled & qualified engineers & technologists with immense industry experience. The skilled qualified manpower, analyse & verify everything that enters the production process multiple times

## 2 RAW MATERIAL

Leebex Metals uses LME Grade A Copper Cathodes which are tested and certified.

## 3 TESTING

Raw material input is defined and tested in NABL certified laboratory to ensure its superior quality.

Each stage of the manufacturing process has a stringent quality testing procedure to ensure that there's no degradation in the precision of the products

Final products then undergo multiple testing procedures in Leebex Metals's in-house laboratory which then provides a test certificate upon successful approval of the materials

## 4 CERTIFICATION

LEEEX is being recognised for their adherence to industry standards and have acquired an ISO 9001- 2015 Certification.

LINEAR MANAGEMENT SOLUTIONS

# INDUSTRIES WE CATER TO

1

TRANSFORMERS & SWITCHGEAR

2

TRANSMISSION & DISTRIBUTION

3

RAILWAYS & AUTOMOBILES

4

POWER GENERATION

5

INFRASTRUCTURE &  
TELECOMMUNICATIONS

“

*Leebex Metals not only creates existing components but is also efficient in innovation and creation of customised products.*
